**THE HONORABLE LINDA THOMAS-GREENFIELD
UNITED STATES AMBASSADOR
TO THE UNITED NATIONS**

Ambassador Linda Thomas-Greenfield was nominated by President Joseph R. Biden, Jr. to be the Representative of the United States of America to the United Nations as well as the Representative of the United States of America in the Security Council of the United Nations on January 20, 2021. She was confirmed by the U.S. Senate on February 23, 2021, and sworn in on February 24, 2021 by the Vice President of the United States of America.

Ambassador Linda Thomas-Greenfield, a career diplomat, returned to public service after retiring from a 35-year career with the U.S. Foreign Service in 2017. From 2013 to 2017 she served as the Assistant Secretary of State for African Affairs, where she led the bureau focused on the development and management of U.S. policy toward sub-Saharan Africa. Prior to this appointment, she served as Director General of the Foreign Service and Director of Human Resources (2012–2013), leading a team in charge of the State Department’s 70,000-strong workforce.

Ambassador Thomas-Greenfield’s distinguished Foreign Service career includes an ambassadorship to Liberia (2008–2012), and postings in Switzerland (at the United States Mission to the United Nations, Geneva), Pakistan, Kenya, The Gambia, Nigeria, and Jamaica. In Washington, she served as Principal Deputy Assistant Secretary of the Bureau of African Affairs (2006–2008), and as Deputy Assistant Secretary of the Bureau of Population, Refugees, and Migration (2004–2006).

After retiring from the U.S. State Department in 2017, Ambassador Thomas-Greenfield led the Africa Practice at Albright Stonebridge Group, a strategic commercial diplomacy firm chaired by former Secretary of State Madeleine Albright. She was also the inaugural Distinguished Resident Fellow in African Studies at the Institute for the Study of Diplomacy at Georgetown University from fall 2017 to spring 2019.

Ambassador Thomas-Greenfield was the 2017 recipient of the University of Minnesota Hubert Humphrey Public Leadership Award, the 2015 recipient of the Bishop John T. Walker Distinguished Humanitarian Service Award, and the 2000 recipient of the Warren Christopher Award for Outstanding Achievement in Global Affairs. She holds a bachelor’s degree from Louisiana State University and a master’s degree from the University of Wisconsin, where she also did work toward a doctorate. She received an honorary Doctor of Law degree from the University of Wisconsin in May 2018 and an honorary Doctor of Philosophy from the University of Liberia in May 2012.

HISTORY OF THE U.S. NAVAL WAR COLLEGE

Founded in Newport, Rhode Island on October 6, 1884, the U.S. Naval War College is the oldest war college in the world. Commodore Stephen B. Luce was the first President and organized the War College as a place to study the highest aspects of the military profession, defining it as “a place of original research on all questions relating to war and to statesmanship connected with war, or the prevention of war.” These foundations were built upon by Captain Alfred Thayer Mahan, second President of the College, who had originally been selected by Luce to initiate the course in Naval History. Of all the men who were to influence the institution in its early years, none was to have a more profound impact. Mahan’s views deeply affected such leaders as Henry Cabot Lodge and Theodore Roosevelt and through them and others helped shape the United States’ destiny at the turn of the century. Mahan’s Naval War College lectures, published as *The Influence of Sea Power Upon History, 1660–1783* (1890), gained him worldwide acclaim and first established the U.S. Naval War College as an internationally respected institution. Other early faculty members made pioneering contributions to hallmark areas of enduring interest for the College. Among them were Charles Stockton, who drafted the first international law code for naval warfare in 1898, and William McCarty Little, who developed the art of naval war gaming between 1886 and 1914.

Functioning continuously since 1884, except for brief periods during the Spanish-American War and World War I, the War College numbers among its graduates such distinguished naval officers as Admirals Sims, Spruance, King, Nimitz, and Halsey, in addition to many others who today are holding prominent positions.

The work begun more than one hundred years ago by Luce and Mahan continues today. As graduates well know, the curriculum is both demanding and rewarding. For the military professional, the unique education provided by the Naval War College is unrivaled. In recognition of the academic rigor and educational excellence of its program, the U.S. Naval War College has been accredited since 1991 by first the Commission on Institutions of Higher Education of the New England Association of Schools and Colleges and now the New England Commission of Higher Education to award a Master of Arts degree in National Security and Strategic Studies. In 2015 this accreditation was expanded to award two degrees. Graduating students in the senior level course now receive a Master of Arts in National Security and Strategic Studies while graduating students in the intermediate course receive a Master of Arts in Defense and Strategic Studies.

THE ACADEMIC PROCESSION AND REGALIA

For centuries, institutions of higher learning have dignified their ceremonies with an academic procession, a custom descending from the clerical procession. The procession is led by a marshal, followed by the student body and the academicians or faculty, attired in the robes prescribed for their respective degrees. Distinguished visitors and delegates follow the faculty, and last in the procession comes the president of the institution.

Each member of an academic procession ordinarily wears a cap, gown, and hood. In the procession today military faculty will not wear academic gowns. The earliest illustration depicts gowns worn at Oxford University that somewhat resemble cassocks worn by English teachers who found good use for the hood, or cowl, as protection against the weather. A uniform American system of academic heraldry displays the level of degree, the field of study in which it was earned, and the institution by which it was granted.

It is the hood which provides academic regalia its color and offers the most information about its wearer. The silk lining of the hood bears the color, or colors, of the degree-granting college or university; its velvet facing reveals the color assigned to each area of study. The Bachelor’s gown is relatively simple, falling in straight lines from an elaborate yoke and having pointed sleeves. The Master’s gown is slightly more elaborate and fastens about the wrist. The Doctor’s gown is marked by velvet panels down the front and around the neck, as well as by three bars of the same material on the well-shaped sleeves. It is cut more fully and may be ornamented. The hood worn is three feet in length for Bachelors, three and one-half feet for Masters, and four feet for Doctors, with velvet trimming of two, three, and five inches in width respectively.

The edging, or facing, velvet of academic hoods indicates the area of study. The principal scholarly fields seen in the procession today include:

<i>Philosophy</i>	<i>Dark Blue</i>
<i>Arts, Letters, Humanities</i>	<i>White</i>
<i>Business Administration</i>	<i>Light Brown</i>
<i>Economics</i>	<i>Copper</i>
<i>Engineering</i>	<i>Orange</i>
<i>Law</i>	<i>Purple</i>
<i>International Affairs/Public Administration</i>	<i>Peacock Blue</i>

The American mortarboard, derived from the soft Oxford cap, is black. Its tassel, for holders of the bachelor’s and master’s degree, is usually black, while gold tassels are worn by holders of doctoral degrees and heads of institutions. The tassel is worn on the right side of the cap by undergraduates, on the left by holders of bachelor’s and higher degrees.
