CHECKING INTO THE U.S. NAVAL WAR COLLEGE
College of Naval Command & Staff (CNCS) In-processing Information

The report no later than date is 10 February 2023 by 1300.
You may report earlier, provided it is within the boundaries of your orders and cleared by your NWC Service Advisor.

Uniform for in-processing:
USN: Khakis
USMC: Service B

Due to the on-going COVID environment, in-processing is currently done in a hybrid fashion, some parts electronically and some parts in-person. DO NOT report to the NWC Quarterdeck to have your orders stamped. Check-in to NWC will be done virtually via the "New Student Arrival and Check-in" form located on Blackboard. Once the electronic form is submitted, you will be contacted by someone from our OPSCELL to confirm receipt of your information. DO NOT fill out the form until you arrive. Your official check-in (Orders stamp equivalent) will be based on submission of this form.

You also need to schedule an appointment to come in for the in-person portion of your NWC in-processing. The link is on Blackboard. Follow instructions on Blackboard for your NWC in-processing paperwork. Details on how to access Blackboard are contained in Attachment 2 of the welcome aboard email.

Other Services will receive additional guidance on Service specific in-processing requirements.

Do not bring family members with you when you report for in-processing. You will have other opportunities to show them around. Note, household goods shipments get delayed all the time. DO NOT PACK UNIFORMS NEEDED FOR IN-PROCESSING AND DAY ONE OF ORIENTATION!!

5. Security Clearance Information
   Attendance at the Naval War College requires at least a SECRET level clearance. If you are not currently cleared for SECRET or are due for a periodic review (PR), you should initiate the request immediately at your current command. While a SECRET clearance is required, most
courses are taught at the unclassified level. SIPRNET accounts will NOT normally be established unless academic or community requirements dictate access.

Though it is not necessary to have a current TS/SCI eligibility, some of our Elective courses and Special Programs/Advanced Research Projects (ARPs) are held at this level. Students with current TS/SCI eligibility may apply for these courses. There is no need to send SCI clearance information prior to arrival at NWC nor do military students require an SCI transfer in status (TIS). NWC SSO will verify clearances and facilitate SCI indoctrination if required for Elective course enrollment. Please note, if your SCI eligibility is expired, our SSO cannot submit you for a reinvestigation solely for the purpose of taking an Elective course as it does not meet the “need-to-know” threshold. Contact the SSO if you have questions, sso@usnwc.edu.

The Naval War College Digital Curriculum / Bring Your Own Device Policy

Based on extensive research and evaluation, the Naval War College is digitizing a majority of the curriculum with the intent to provide an improved educational experience for our students, save printing costs, and do our part to help save the environment by reducing our use of paper.

What does this mean for me? The NWC is no longer issuing all curriculum materials in print form. Students will now be provided digital copies (in lieu of printed materials) for all curriculum materials that can be digitized.

Bring Your Own Device
The NWC has adopted a Bring Your Own Device (BYOD) policy. All students are required to bring their own laptops or tablets in order to access the digital curriculum. The college will provide you with the formatted readings and instructions on how to load them onto your device. By using your own device, you will be able to retain all the selected readings on your tablet for future professional reference. Bring your device with you as you so you can setup your Wifi account during check-in and attend Zoom sessions as needed.

Suggested Devices
Nearly all devices will work with the Naval War College's digital curriculum. In the past we have had success with Microsoft products, Apple products, and Android products. Some examples include iPads and the Microsoft Surface. Traditional laptops (PC and MAC) work just as well.

War College Email and Wireless Network Access
Mobile devices such as phones and tablets and laptops will not require a CAC reader to access email or calendars.
While at NWC, students will be able to access a wireless network within the Naval War College. Personal devices should have the latest security and software updates as well as a current anti-virus program installed. If they do not, they may not be allowed to join the wireless network.

Can I get ALL my readings in digital format? Not yet. Required readings for your courses are either “Selected Readings” (articles and the like) or books. We have been successful in converting 95% of the Selected Readings to digital format and they will be available for loading onto your device. Regarding books, most of those used in our curriculum are not yet available digitally; however, the College is working with publishers to make them available in the future. In the meantime, students will be issued the print version of books that are not yet available in digital format.

Will the NWC support/service my personally owned device? No. NWC personnel are not authorized or trained to provide servicing of personal devices. The NWC can
only provide the formatted readings and instructions for you to load the readings onto your personal device.

**Can I buy a device from the NWC?** No. Devices are available directly from the manufacturer or at military exchanges and other retail outlets.

**Does the NWC have loaner laptops?** No. You must bring your own device.

**What should I do before arriving in Newport?** If you already have a personal device you would like to use, do your best to make sure it is up to date. This includes Apple updates, Windows updates, and software updates (Java, Flash player, Internet Browser, etc.), and current anti-virus software such as McAfee, Norton, or Symantec. If you do not have a device, please purchase one and update it.

**Bring your device with you as you will need it for accessing Blackboard to complete your NWC student check-in and in-processing. You will also use it for virtual Zoom sessions as needed.**

Advance moving tips:

Create a Defense Personal Property System (DPS) account at https://dps.move.mil/cust/standard/user/home.xhtml

Contact our office as soon as PCS/Retirement or Separation orders are received to set up an appointment

Provide a seven (7) calendar day pickup date spread when accomplishing your application for shipment. Do not make commitments until your move dates are secured with a carrier.

Allow sufficient days to clear out of housing, rental or closing on your home.

Optimal move dates...

Peak moving season is extremely challenging for all customers. Carrier capacity during June and July is at a premium. Customers are encouraged to avoid the last two weeks of June through 4 July.

Excess weight can cost the customer a lot of money. An easy and usually dependable method is to estimate a 1,000 pounds per room. You can also ask your personal property counselor the weight of your previous shipment.

Lastly, ensure your residence is clean prior to your scheduled pack date.

Personally Procured Move (PPM):

Have a contingency plan in case primary or alternate dates are not available. If no government contractor is available to move your property, you may want to procure your own moving company.

You can get an estimate for your upcoming PPM when you apply via www.move.mil. The estimate identifies how much the government will pay if you choose to “do-it-yourself.” You can use this money to cover the cost of hiring packers, renting moving trucks, and so on. If you spend less to move your property the government will incentivize you to move yourself, you get to pocket the difference!
