## COVID-19 VACCINE ALERT!!

Students should be aware that there is no ability to expedite COVID-19 vaccination for transient students regardless of their follow-on duty assignments, and there is currently no mechanism in place to give second doses to students that received the first dose at a different MTF. Students who take the first dose at a separate MTF prior to their transfer probably will not receive the second dose while here. Requests will be handled on a case-by-case basis, but there should be no expectation of receiving either a first or second dose of the vaccine while at the Naval War College. Furthermore, Naval Health Clinic New England is currently only able to give the Moderna vaccine; we will not be able to accommodate students requesting a second dose of the Pfizer vaccine.

**A common question:** Do I still need to ROM if I have received both shots?

**Answer:** Yes, ROM is required. There is no new DOD/DON guidance that exempts vaccinated personnel from quarantine/ROM following travel or exposure. Per the CDC, the vaccination is still in the early stages of development and more data is required before making recommendations about how the vaccine affects the spread of COVID-19. The vaccine has been shown to help promote immunity in the individual but it is still uncertain how it affects transmission."
